

PLATINUM

SMART-HEAT™ ELECTRIC

A premium electric heater blending top performance and aesthetics

The latest edition to the smart-heating range, the Bromic Platinum Smart-Heat™ Electric, is the pinnacle of infrared electric heating producing a comfortable radiant heat matched with elegant style and premium quality.

The Platinum Smart-Heat™ Electric is designed to provide efficient directional heating and seamless integration into commercial and residential locations.

Wind and weather resilient, the Platinum Smart-Heat® Electric provides soft, radiant heat flow. One or more heaters can be switched on and off simultaneously from a single remote-located switch.

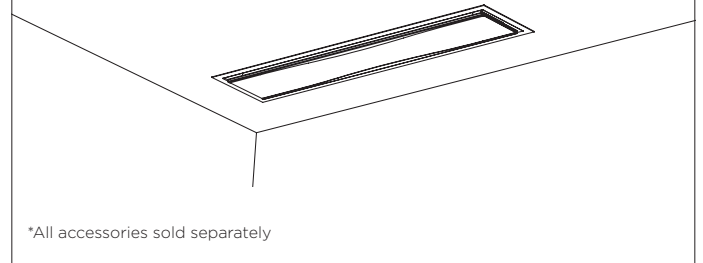

FEATURES:

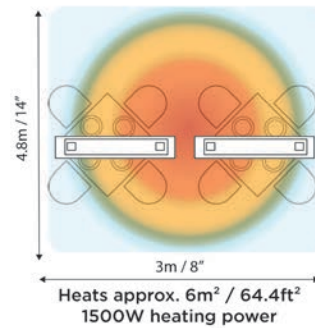

- 2300W output
- Ultra thin and stylish
- Efficient directional spot heating
- Bracket allows for 60 degrees of motion top to bottom
- Weather resistant (ipx 5) and wind resistant
- Can be integrated into smart control systems.
- One or more units can be switched on or off simultaneously from a single remote located switch.
- Multiple Mounting Options - Wall, Ceiling, and Recessed (Flush Mounted).
