TUNGSTEN

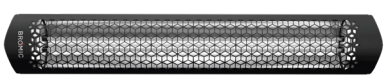

SMART-HEAT® ELECTRIC COASTAL

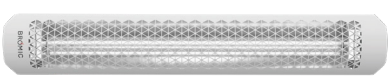

KEY FEATURES

- **Marine-Grade Durability:** Engineered for coastal environments with enhanced resistance to salt air and corrosion
- **Performance in Harsh Outdoor Conditions:** Designed to maintain reliable performance in high-moisture and exposed outdoor environments
- **Efficient Radiant Performance:** Soft-glow infrared elements and a spectral reflector deliver effective, targeted radiant heat with reduced glare
- **Refined, Low-Profile Design:** Slim form factor integrates seamlessly into modern architectural settings
- **Low-Clearance Recessing:** Compatible with a low-clearance recess kit for a cleaner, more integrated ceiling installation
- **Durable, Weather-Resistant:** High-temperature, corrosion-resistant coating with an IPX5 rating for outdoor use
- **Directional & Versatile Mounting:** Adjustable mounting hardware supports precise heat placement across wall, ceiling, and angled mounting applications
